Subject: HB589

Dear Gov. Roy A. Cooper III,

Please stand veto HB589, the bill that would put a moratorium on the development of wind energy in North Carolina.

Renewable energy is creating jobs at a record pace across the United States, so North Carolina workers will lose out if this bill becomes law. And it's pretty clear that fossil fuel companies, like Duke, will have to be dragged kicking and screaming into the huge economic opportunity that clean energy represents...so, please, grab hold of a collar and give a pull. Your pull will be worth more than most of ours, even if this insane legislature overrides your veto.

Please protect the health and well-being of North Carolina residents by vetoing HB589, the wind energy moratorium bill.

Sincerely,

Catherine Carter
